

# FROM VIOLENCE YOU CAN GET OUTBY

VIOLENCE AGAINST WOMEN  
IS A STRUCTURAL PHENOMENON  
THAT IS COMMON TO ALL COUNTRIES  
AROUND THE WORLD

 Regione Emilia-Romagna

It affects women of all ages, economic,  
social and cultural backgrounds

## WHAT IS HAPPENING TO ME?

**Violence has many forms, which you can recognize**

Can be (here are some examples of violence):

**physical** (beats you, tugs at you, invades your physical space, hurts you, throws objects at you, causes physical mutilation)

**sexual** (harasses you, forces you to have sex, coerces you into painful sexual behavior, makes annoying sexual advances, threatens you, insults you in your sexuality)

**revenge porn** (spreads intimate images of you online without your consent to hurt you or take revenge)

**psychological** (humiliates you, insults you, denigrates you as a woman, mother, partner, devalues your professional role, threatens you, controls your relationships and isolates you)

**economic** (uses his economic superiority to subdue you, forces you not to work, opens a joint account without your consent, does not pay your family allowance, deprives you of economic independence, accumulates debt)

**spiritual** (denigrates your values, prevents you from following your religious faith)

stalking (stalking you, calling or emailing or texting you in such a nagging way that you feel sick or afraid)

**witnessed** (your children/daughters) witness acts of violence toward you or toward other figures of reference for them)

**Whatever the violence is, you are not guilty of it!**

## HOW DO I FEEL WHEN I SUFFER VIOLENCE?

Alone, afraid, depressed, tired, unable to make decisions, I feel guilty and ashamed, I have attacks of panic attacks, I can't sleep well, I have concentration disorders, I no longer eat well, I experience difficulties in work and I am always at risk of losing lucidity and self-esteem...

*Look at the wheel of power and control*

## HOW DO MY CHILDREN FEEL WHEN THEY WITNESS VIOLENCE?

Anxious, depressed, aggressive.

They may have learning problems or not do well in school

They may lose self-esteem and not have positive intimate relationships.

They may become self-injurers, have eating disorders, bully, use alcohol and substances.

They often think they are or have been children bad/and, guilty of what happens and powerless. They worry about taking charge of your protection or mediating between you and your partner.

**Violence is not justifiable, is the responsibility of the perpetrator and is NEVER dependent on the behaviors of women**

## WHAT CAN I DO?

Come out of isolation, talk about it, learn the language of your host country to understand what is happening around you

You can contact the State Police through the **YouPol App**, which can be downloaded for free for **ios** and **Android** devices.

**Call:**

**1522**

or the anti-violence center in your area  
(see list)

**118**

if you are injured or need immediate  
medical assistance related to the  
violence

**112**

if you need to get law enforcement  
involved

## WHAT IS HAPPENING IN MY HOME COUNTRY?

It is important that you know the addresses and phone numbers of associations fighting for women rights and against violence.

It is important that you know the laws that can protect you and that were passed where you used to live.

They can help you protect yourself legally in your migration journey as well. Knowing that they are there will make you feel less alone and aware that you are trying to defeat male violence against women EVERYWHERE.

**Set out to find useful information through the web.**

Here are examples:

Morocco

Pakistan

Albania

**There are no traditions and social norms to preserve forever.  
There are first and foremost your universal rights as a woman  
and they must be recognized**

*Material produced by the Assessorato Pari Opportunità of the Emilia-Romagna Region and  
Anci Emilia-Romagna with the collaboration of Tiziana Dal Pra*

## WHAT DO I FIND IN AN ANTI-VIOLENCE CENTER?

It is a listening protected place that puts you and your children in safety. You can activate a pathway out of violence and rebuild your life project, including the support of a cultural mediator who speaks your language.

The anti-violence center can support you psychologically, orient you to work, give you legal support, connect you with other services in the area. In addition, if necessary, it can offer you and your children free hospitality in a shelter with a secret address.

**There are anti-violence centers in all the province of Emilia-Romagna. Many of these also have locations in smaller Municipalities.**

**List of centers**  
*Frame the QR  
code with your  
phone camera*
